Tommy Marshall

GRC ANALYST | RISK | CONTROLS | IAM | SECURITY GOVERNANCE

Atlanta, GA | (404) 661-9425 | tommymarshallgrc@gmail.com | LinkedIn | GitHub

PROFESSIONAL PROFILE

GRC practitioner and operations leader with nearly a decade of experience strengthening process accountability, documentation, stakeholder coordination and risk response in high-volume environments. Built four applied portfolio programs covering enterprise risk, control design and testing, identity governance, AI oversight and cloud-security operations. Brings a practical ability to translate requirements into clear workflows, evidence expectations, corrective actions and business-facing reporting.

CERTIFICATIONS

Certified GRC Engineer - Auditor Specialty (CGE-AUD) | Verify Credential
CompTIA Security+ | Expected October 2027
AWS Certified Cloud Practitioner | Expected May 2027

VALUE AT A GLANCE

- **Applied GRC work:** four self-directed programs demonstrating risk assessment, control mapping, evidence testing, remediation tracking and executive reporting.
- **Enterprise scope:** modeled a security and IAM program for a fictional 225-employee logistics company across 11 defined scope areas.
- **AI governance:** created a 38-file repository applying the NIST AI RMF to impact assessment, oversight, monitoring, vendor risk and incident response.
- **Operational results:** sustained 98% on-time delivery while improving turnaround time 15% and reducing operating costs 12% through standardized workflows and performance monitoring.

PROFESSIONAL EXPERIENCE

AI Trainer and Quality Evaluator | TELUS International AI Acquisitions

Remote | April 2023-December 2025

- Evaluated webpages, digital content and AI-generated outputs against defined standards for accuracy, relevance, quality and user experience.
- Maintained confidential electronic records and documented inconsistencies to support repeatable quality measurement and process improvement.

Logistics and Operations Manager | Solidarity Analytics and Media

Atlanta, GA | January 2023-January 2025

- Directed multi-city scheduling, routing, documentation and issue-escalation workflows while sustaining 98% on-time delivery.
- Improved turnaround time 15% and reduced operating costs 12% through workflow standardization, route optimization, KPI monitoring and corrective action.
- Maintained performance records, coordinated stakeholders and resolved exceptions affecting service commitments and business continuity.

Director of Logistics | David August Inc.

Atlanta, GA | November 2021-January 2023

- Led personnel, vendor, scheduling, inventory-movement and shipment-documentation activities across time-sensitive operations.
- Resolved fulfillment discrepancies and reinforced ownership of service requirements, reducing avoidable operational disruption.

SELECTED GRC PROJECTS

Human-Centered Security and IAM Program | **Enterprise Risk**
Assessed a fictional logistics enterprise across Microsoft 365, SaaS, on-premises, mobile and third-party environments; developed risk, RBAC, awareness, incident-response, control-testing and KPI/KRI artifacts.

AI Governance and Risk Program | **NIST AI RMF**
Developed an AI use-case inventory, impact assessment, risk register, RACI, control set, oversight model, vendor-risk process, monitoring plan, evidence tests and POA&M.

From Framework to Workflow | **Control Operations**
Translated framework requirements into control narratives, accountable owners, procedures, test steps, evidence requirements, gap findings, remediation actions and performance indicators.

Cloud Security Operations Blueprint | **Cloud Governance**
Connected cloud policies and controls with IAM, incident escalation, evidence collection, continuous monitoring, technical ownership and business-risk priorities.

ADDITIONAL PROFESSIONAL EXPERIENCE

Transportation Manager | Alpert and Alpert Iron and Metal Inc.
Atlanta, GA | September 2018-September 2021

- Managed driver assignments, routing, vehicle readiness, equipment utilization, shipment staging and daily dispatch requirements.
- Maintained transportation, inventory, shipment, safety and chain-of-custody records supporting traceability and operational accountability.
- Tracked driver, schedule, equipment and documentation exceptions; coordinated corrective actions and escalations to reduce service, safety and operational risk.

Independent Contractor | Lyft, Metrobi, GoShare and Wingz
Atlanta, GA | January 2024-Present

- Coordinate time-sensitive transportation and delivery assignments using digital platforms, routing tools, real-time customer communication and accurate service records.
- Resolve routing, scheduling, documentation and service exceptions to protect service quality and operational continuity.

KNOWLEDGE AND TOOLS

Frameworks: NIST RMF, NIST CSF, NIST SP 800-53 Rev. 5, NIST AI RMF, ISO/IEC 27001 and FedRAMP concepts
Practices: risk registers, control mapping, gap analysis, evidence review, control testing, POA&Ms, policies, access reviews, RBAC, MFA, least privilege and continuous monitoring
Tools: Microsoft 365, Excel, Google Workspace, GitHub, Markdown, Mermaid, AWS and Azure fundamentals

LEADERSHIP AND EDUCATION

Director of Events, GRC Engineering Club Atlanta Chapter | *2026-Present*
Coordinate professional-development programming and helped design a four-phase roadmap covering business context, risk, controls, evidence, remediation and continuous monitoring.

DeVry University | Undergraduate Coursework, Computer Information Systems | 2003
